Contents of Volume 20

Number 1

1 Analysis of Soil Nailed Earth Slope by Discrete Element Method
J. S. KIM, J. Y. KIM & S. R. LEE (Korea)

15 A Cosserat Continuum Model for Layered Materials
D. P. ADHIKARY & A. V. DYSKIN (Australia)

47 Analysis of Behavior of Stone Columns and Lime Columns
H. B. POOROOSHASB & G. G. MEYERHOF (Canada)

71 Behavior of Joints and Interfaces Subjected to Water Pressure
K. L. A. NG & J. C. SMALL (Australia)

Technical Note

95 On the Influence of Soil Strength Brittleness and Nonlinearity on Slope Stability
M. SRBULOV (UK)

I Calendar of Events

Number 2

105 An Approximation for Analysis of Raft and Piled Raft Foundations
L. D. TA & J. C. SMALL (Australia)

125 An Equivalent Model and Back-analysis Technique for Modelling *in situ* Consolidation Behavior of Drainage-installed Soft Deposits
Y. T. KIM & S. R. LEE (Korea)

143 On the Steady Flow of an Incompressible Elastic–Plastic Material Past Thin Cones: Numerical Results
J. NORBURY & T. I. TASKINEN (UK)

Technical Note

161 Elastic Analysis of an Annular Slab–Soil Interaction Problem Using a Hybrid Method
K. CHANDRASHEKHARA (India) & S. J. ANTONY (UK)

I Calendar of Events

Number 3/4

Special Issue on Theoretical and Experimental Methods for Particulate Materials

177 Introduction
A. MISRA & C. S. CHANG (USA)

179 Influence of Time Effects on Instability of Granular Materials
P. V. LADE, J. A. YAMAMURO & P. A. BOPP (USA)

195 Coupled Theory of Mixtures for Clayey Soils
G. Z. VOYIADJIS & M. Y. ABU-FARSAKH (USA)

223 Interparticle Forces and Displacements in Granular Materials
F. EMERIAULT (France) & C. S. CHANG (USA)

245 Modified Darcy's Law, Terzaghi's Effective Stress Principle and Fick's Law for Swelling Clay Soils
L. SCHREYER BENNETHUM (USA), M. A. MURAD (Brazil) &
J. H. CUSHMAN (USA)

267 Measured Kinematic Fields in the Biaxial Shear of Granular Materials
A. MISRA & H. JIANG (USA)

287 Plastic Compaction of Cemented Granular Materials
J. DVORKIN & D. YALE (USA)

303 Constitutive Relations for Two-phase Particulate Materials with Elastic Binder
H. ZHU, J. W. RISH III & W. C. DASS (USA)

323 Numerical Analysis of Wave Propagation Through Assemblies of Elliptical Particles
M. H. SADD, J. GAO & A. SHUKLA (USA)

345 A Generalized Constitutive Relation for a Randomly Packed Particle Assembly
C.-L. LIAO & T.-C. CHAN (Taiwan)

I Calendar of Events
